**Setting Up the Game**

From the Main menu, you can start a NEW ADVENTURE or select CONTINUE ADVENTURE to pick up where you left off in a saved game. Before you start, you must choose a Difficulty setting and turn the following options ON or OFF: Subtitles, Vibration, Screen Type and Autosave.

**Spell-Casting**

To defend himself and his companions, complete his tasks and successfully explore Hogwarts, Harry must cast all sorts of spells. To master spells, Harry must perform gestures with his wand, which he learns throughout the game. If you forget how to perform a spell, you can review all the spell gestures you have learned in the Spell List on the Pause menu.

**Dumbledore's Army**

Since Umbridge™ won't allow the students to practice any Defense Against the Dark Arts (DADA) spells, Hermione convinces Harry to take matters into his own hands. Harry and a small group called Dumbledore's Army (the D.A.) meet secretly in the Room of Requirement. The spells they learn there will also prepare the young wizards for their O.W.L.s and for a confrontation with Voldemort and his Death Eaters.

Explore Hogwarts with Harry to recruit all the members of the D.A., then teach them Defense Against the Dark Arts in the Room of Requirement.
DISCOVER HOGWARTS

When Harry isn't training other students or practicing Defense Against the Dark Arts, he can explore Hogwarts to discover some of its magical secrets.

MARAUDER’S MAP

Use the Marauder’s Map to find characters, tasks and locations in the game.

Press the square button to access the map.

Press the D-buttons ← to view locations on the map.

Press the D-buttons → to see the active tasks on the map from the tab to the right of the map. Then select the name of the person you want to find and see where they are in the castle.

Press the D-buttons ↑/↓ to scroll through either list.

Press the X button when you have a task or destination highlighted to see where it is on the map in relation to Harry’s current location.

Tip
If you get confused about which way to go, access the Marauder’s Map and pick the location or task you wish to locate. Then return to the game and follow the direction of the footprints – they’ll point you in the right direction.

DISCOVERABLES

There are many items that Harry can interact with scattered throughout the castle.

Try casting spells on various items. When Harry uncovers these items, he earns Discovery Points. When he earns enough Discovery Points, he unlocks different items in the Room of Rewards.

Tip
You may come across broken objects as you explore the castle.
Cast a quick Reparo spell to set things right in no time.

TASKS

To get around Hogwarts and to assemble Dumbledore’s Army, Harry will need to talk to students, teachers, portraits, ghosts and gargoyles and complete various tasks for them. Complete the tasks they assign and they may reward you!

HOGWARTS PORTRAITS

The enchanted portraits dotted around Hogwarts guard hidden shortcuts that Harry can use to quickly go from one area of the castle to another. However, to get past a portrait, Harry will need to learn its password by completing a task or a puzzle.

Tip
Look for pairs of portraits. If you find the same portrait in two different areas of the castle, there is usually a shortcut from one area to the other. But you have to know the password to use it.
**Wizard Games**

Test your skills against the top players in every Hogwarts house. If you can outplay the best at Exploding Snap, Gobstones or wizard chess, you earn Discovery Points.

**Wizard Chess**

Wizard chess is much like Muggle chess, except the game pieces follow the commands of the players and actually engage in battle to destroy the opposing pieces. Approach a pair of students playing wizard chess and press the \( \text{A} \) button to challenge one of them to a game.

- Press the right analog stick to move the highlight and then press the \( \text{B} \) button to select that piece.
- Press the right analog stick to move the highlight and then press the \( \text{A} \) button to select a position to move the piece to.
- Press the left analog stick to reposition the camera to get a better view of the board.

**Gobstones**

Approach a pair of students playing Gobstones and press the \( \text{B} \) button to challenge one of them to a game.

- To flick a Gobstone, press the right analog stick \( \downarrow \) and then press the right analog stick \( \uparrow \). The further down you press the right analog stick, the harder the stone is flicked.
- Press the left analog stick to reposition the camera and aim your shot.

There are three ways to play and win at Gobstones. Harry's opponent sets the rules before the game begins.

- **Traditional Rules**
  Knock more Gobstones out of the ring than your opponent.

- **Snake Pit Rules**
  Get your Gobstones closer to the pit than your opponent.

- **Jack Stone Rules**
  Get your Gobstones closer to the jack than your opponent.

**Exploding Snap**

Approach a student playing Exploding Snap and press the \( \text{A} \) button to join the game. There are two ways to play Exploding Snap. In one version you match pairs:

- Press the left analog stick to move the highlight.
- Press the \( \text{B} \) button to select a card. When two of the same cards are uncovered, you win those cards.

In the other, you win the revealed stack of cards by slapping down (press the right analog stick \( \uparrow \)) when two of the same cards appear back-to-back.

**Room of Rewards**

Once Harry earns Discovery Points, he finds the Room of Rewards. In the room, he can see the rewards that he's unlocked and also what he needs to do to unlock the unavailable content.
